Tentative Program

2nd International Conference on

Diabetes and Its Complications

October 22-24, 2018

Venue

**DoubleTree by Hilton
Houston Intercontinental Airport**
15747 John F. Kennedy Blvd.
Houston, TX 77032 USA

ICDC 2018

Organizing Committee Members

Azza B. El-Remessy
Augusta Biomedical Research
Corporation, GA

Sayon Roy
Professor of Medicine and
Ophthalmology, Boston University
MA

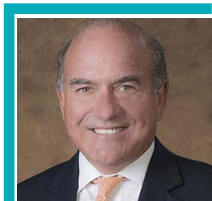

Maria Jose Redondo
Baylor College of Medicine
Houston, TX

Scientific Topics

- Type 2 diabetes: Basic and Clinical Research
- Diabetic Therapies
- Diabetes and Obesity
- Diabetes Complications
- Diabetes Management: Awareness, Support, Therapy, and Technology
- Pediatric Diabetes
- Diabetes Nursing Management

ICDC 2018

Keynote Speakers

William Paiva
Patterson Foundation Chair
Oklahoma State University, OK

Dana T Graves
University of Pennsylvania
PA

Nicola Abate
Director, Stark Diabetes Center
TX

Sayon Roy
Boston University
MA

Robert J Chilton
University of Texas Health Science
Center San Antonio, TX

Claudio Soto
UT Health Science Center
at Houston, TX

Yochai Birnbaum
Baylor College of Medicine
Houston, TX

Lu Cai
Director of Pediatric Research Institute
University of Louisville, KY

Day 1 — Monday
22 Oct, 2018
9:00 am - 1:00 pm

DoubleTree by Hilton
Houston Intercontinental Airport
15747 John F. Kennedy Blvd.
Houston, TX 77032 USA

Ph: +1-408-426-4832
E: icdc@uniscigroup.org

**This is a tentative program and is subjected to change without any prior notice*

Speaker

Presentation Title

Robert W. Liles

Liles Parker, PLLC, Washington, DC

The Business of Medicine: The Top 10 Regulatory Risks Faced by Endocrinologists and Their Practices

Jin-Xiong She

Augusta University, GA

A novel mass spectrometry-based urine test, multiple protein creatinine ratio (mPCRTM), greatly improves the sensitivity and specificity for the diagnosis of diabetic kidney disease

Martinez Neslihan M

The University of Texas Medical Branch, TX

RNA regulatory networks in the diabetic heart

Chunyu Cai

UT Southwestern Medical Center, TX

Diffuse micro vascular C5b-9 deposition is a common feature in muscle and nerve biopsies from diabetic patients

Maria Jose Redondo

Baylor College of Medicine, TX

Heterogeneity of type 1 diabetes

Jose Halperin

Harvard Medical School, MA

A Role of Complement and the Complement Regulatory Protein CD59 in the complications of human diabetes

Muge Kuyumcu-Martinez

The University of Texas Medical Branch, TX

RNA regulatory networks in the diabetic heart

Hemalkumar B. Mehta

The University of Texas Medical Branch, TX

Circular association of hypoglycemia with dementia

Coffee Break

Shalini Mani

Jaypee Institute of Information Technology, India

Link between Vitamin D Deficiency and Type 2 diabetes

Ng Mei Li

Universiti Sains Malaysia

Role of Sphingosine Kinase in Insulin Signaling and Its Action in Hepatocytes

Debora C Damasceno

Botucatu Medical School - UNESP, Brazil

Repercussions of an inadequate maternal nutrition of adult offspring from diabetic mother

Attya

Atta-ur-Rahman School of Applied Biosciences, National University of Sciences and Technology (NUST), Pakistan

Association of angiotensin converting enzyme II gene (ACE II) polymorphism in patients with Type 2 Diabetes Mellitus in Pakistan

Aiman Hussein Farghaly Ibrahim

Ministry of Public Health, Qatar

Knowledge about Diabetes among Diabetic Patients and their Perception of Valuable Diabetes Services in the State of Qatar

Posters Presentation

Kwi Suk Kim

Seoul National University Hospital, South Korea

The Effect and Safety of Dapagliflozin in Patients with Type 2 Diabetes: A Single-Institution Pharmacovigilance Review

Sek Ying Chair

The Chinese University of Hong Kong

Knowledge level and associated factors in community-dwelling Chinese adults with metabolic syndrome

Jamal

Ministry of Defence of Saudi Arabia

Knowledge, Attitude and Practice of Hyperbaric O₂ Therapy in the Treatment of Chronic non-healing Wounds among Physicians in the Saudi Armed Forces Hospitals

Aiman Hussein Farghaly Ibrahim

Ministry of Public health, Qatar

Awareness and Perceptions about Diabetes in the State of Qatar

Oyetayo Folake Lucy

EKITI STATE UNIVERSITY ADO-EKITI, Nigeria

Influences of Aqueous Pod Extract of Schrebera Arborea on Lipid Peroxidation and Antioxidant Enzyme Activities in Diabetic Rats

Kirti Parwani

P.D.Patel Institute of Applied Sciences, Charotar University of Science and Technology, Changa, India

An Advanced Glycation End product (AGE) inhibitor from *Enicostemma* sp. and its role in ameliorating the consequences of Diabetic Nephropathy

Diana Henao

Hospital Universitario San Ignacio, Columbia

Reduction of glycemic variability with Degludec insulin in patients with unstable diabetes

Alan Cheng

University of Louisville, KY

Characterization of a Novel Regulator of Glycogen Metabolism

Amaresh Mishra

Gautam Buddha University, India

Preparation of Nutri Beverage Mix Using *Opuntia dillenii* (Cactus fruit)

Seung Kwon Hong

SCHOOL OF MEDICINE THE CATHOLIC UNIV. OF KOREA, South Korea

Associations among variants of LEP, ADIPOQ, PPAR α of Metabolic Syndrome in Korean Postmenopausal Women

Abudukadeer Kuerban

King Abdulaziz University, Saudi Arabia

Identification and evaluation of biological properties of bioactive peptides derived from tryptic hydrolysis of *Lens culinaris*

Speaker

Presentation Title

Naushira Pandya

Nova Southeastern University, FL

Optimizing Insulin Delivery for Patients with Diabetes

Wei-Yang Lu

University of Western Ontario, Canada

GABA Signaling in Pancreatic Cells: Potential Target for Treatment of Diabetes

Sek Ying Chair

The Chinese University of Hong Kong

The underlying mechanism in the association between self-management barriers and self-efficacy in patients with diabetes

Lin Han

School of Nursing, Lanzhou University, China

Internet based integrated diabetes management platform with “Cross-talk”

Nadia Shah

Dow university of Health Science, Pakistan

Direct and indirect costs of diabetes mellitus in Pakistan: An investigation based on cost of illness study

Renowned Speakers: ICDC conference includes the most influential diabetes research speakers in the world, keynotes, informative panels and some of the best networking you'll find all year.

Networking: We are focused to introduce the latest achievements, technologies and breakthroughs in Medical Imaging. The conference provides you with endless opportunities to network with fellow attendees and get exposed to new ideas.

Important Dates

Conference Dates:
October 22-24, 2018

Mid Term Registrations:
August 24, 2018

Registration Closes:
October 18, 2018

Abstract Submission Deadline:
October 01, 2018
