About the Conference

United Scientific Group presents the first edition of The International Conference on Immunity and Immunochemistry (iChem-2019) at San Francisco from July 01-03, 2019.

Immunology is one of the areas with the most cutting-edge and state of the art research going on in almost every corner of the world. This conference aims to bring together people from various areas of research and development in immunology in order to help grow and create opportunities for further advances in the field. This three-day event is dedicated to provide all the participants a platform to share their research in every aspect of immunology.

The program will not only include renowned keynote speakers who helped shape the turn of the century concepts in immunity and immunology but also young academicians with diverse approaches to age-old conceptions in immunology. Through the oral and poster presentations, scientific sessions, and networking sessions, we encourage dialogue between all the attendees in order to fill in the gaps to inspire innovative collaborations. Our objective is to gather peer researchers, inspired scientists, students, and industrialists in order to meet, discuss and share the information that's still more to be revealed.

The conference is scheduled to be held in the beautiful city of San Francisco which is also the seat of most innovative organizations.

Concept

The purpose of iChem-2019 is to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered, and the solutions adopted in the field of immunology.

Agenda

The conference is a unique opportunity to present your latest research, hear to valuable intelligence and information. This is place where world leaders come to talk and listen.

Networking

Unique networking opportunity across worldwide where the world's leading researchers, CEOs, business heads, decision and policy makers, choose to present their latest innovations.

Sponsorship Guide

Support the event and take the advantage of getting connected with your target audience!

United Scientific Group (USG) organizes interdisciplinary international conferences to showcase on cutting-edge basic and applied research outcomes within life sciences including medicine and other diverse role of science and technology in society.

iChem-2019, a three-day conference will give attendees a chance to interact, learn, and engage with the business leaders and industry's foremost researchers, while tackling the pressing issues that face the new generation. Participants will be top level representatives from sectors like prominent commercial; regulatory; scientific organizations and academic institutes.

USG offers several opportunities for sponsors to demonstrate their support towards science and its people by providing financial contributions to facilitate the presentations of noble research findings, hospitality and other necessary management for the scientific gathering.
